#### 授業の目標(Course Objectives)

Students are required to comprehend and utilize the primary sociological concepts and theoretical perspectives to apply those to their lifeworld.

#### 授業の内容(Course Contents)

This course provides students with an overview of the field of sociology. Students will explore the basic sociological concepts, primary sociological theoretical perspectives and methodological approaches to interpret everyday lifeworld. In particular, students will learn and discuss the role of media in social construction of reality with special emphasis on media and cultural studies. Each class has a reading material and students are required to complete reading the assigned material before the class. Students are strongly encouraged to participate in the class discussion.
