授業の目標 (Course Objectives)

- a) Students will understand the major topics in the global and Japanese political economy.
- b) Students will be able to understand key terms and concepts.
- c) Students will be able to critically analyze a topic of their choice in short assignments.
- d) In class discussions, students will have the opportunity to present their thoughts and exchange ideas to develop stronger arguments.

授業の内容 (Course Contents)

Among several aspects of political economy, this course aims to analyze the economic aspects of international and domestic politics. Our topics include the global competition for energy security, Japan's domestic politics and globalization effort, and special topics of development assistance, which roughly corresponds to the ideas of realism, constructivism, and liberalism. This course aims to understand the complexity of politics and the economy and their interaction in international affairs.
